South Carolina should be encouraging news
businesses not shutting them down.

I want to voice my disapproval of your recent actions against Uber! Allow them in our state or we will vote government representatives in who will work to change things and appoint people who will.

I recently took a trip to Charleston, SC. After a fun night of dinner and drinks I was in no state to drive back to my hotel. There were no taxis to be found, I tried using curb taxi app and that was also futile.

My husband suggested we download Uber and it was the best decision I ever made. I now use Uber 2-6 times a month. It is a safe and RELIABLE ride.

It's a shame to not only deny South Carolinians, but your tourists all well. Don't be like Birmingham, AL and do the right thing, give you people what they want **#SCneedsUber**.

Subject: Uber

This is a valid and economically important company. I have used this company for personal purposes since its inception and was thrilled to know it would be available to me in South Carolina. Consider reversing this attempt to rid this company of its chance to operate in South Carolina. People would rather the convenience of ordering a car service from an application on their smart phones than taking the time to look up a taxi service. Uber is safe, sound and secure. It is also the most convenient option for consumers to date.
